

# Ali Abdulkhaliq

## Backend Software Engineer

+9647512060951 | [aliabdulkhalq6@gmail.com](mailto:aliabdulkhalq6@gmail.com) | [linkedin](#) | [github](#) | [ali-software.dev](#)

Skilled in building and optimizing server-side applications, databases, and APIs, I create efficient, scalable, and secure back-end solutions to power seamless user experiences. I also have the understanding of front-end and JavaScript concepts, allowing me to work effectively on front-end integration and full-stack development.

## EDUCATION

---

Bachelor's Degree in Software & Informatics Engineering  
at Salahaddin University-Erbil

SEPTEMBER 2022 - EXPECTED JUNE 2026

## TECHNICAL SKILLS

---

**Programming Languages:** Python, PHP, JavaScript, Java, C#

**Frameworks:** Django & DRF, Laravel, Livewire, ASP.NET Core

**Technologies:** HTML, CSS, Git & GitHub, MySQL, Redis, Postman

## EXPERIENCE

---

@ iQ Cars on Ditana (Redfox Pro)

FEBRUARY 2025 - MAY 2025

Software Development Intern

- Built a system for Ditana to efficiently handle RFQs, evaluate costs, generate quotes, and track profits, and improving the quoting process. This system is now being used by Ditana and it saves a lot of time for them.

## PROJECTS

---

**Uni Food APIs: (GitHub)** Unifood in an online ordering food website that serve students in college and allows them to order food in class and eat it in their college cafeteria without waiting to prepare the food.

**Little Lemon Restaurant APIs: (GitHub) (capstone project from Meta Back-End Learning Program)** A fully functioning API project for a restaurant. People with different roles will be able to browse, add and edit menu items, place orders, browse orders, assign delivery crew to orders and finally deliver the orders.

**Jiasaz Assessment — Admin Panel: (GitHub)** Developed a dynamic role-based admin panel for managing staff and orders with workflows for creation, approval, and delivery across admin, customer, shop owner, and driver roles.

## CERTIFICATIONS

---

**Meta Back-End Developer** (Offered by Meta - Sponsored by Rwanga)

<https://www.coursera.org/account/accomplishments/professional-cert/9V5L7PX2ZRAT>

This 9-course program prepares learners for an entry-level career as a back-end developer.

**Python Django - The Practical Guide** (Udemy - Academind by Maximilian Schwarzmüller)

<https://www.udemy.com/certificate/UC-bcd1e658-5b61-4931-938c-53a2054dbfa8/>

Learn how to build web applications and websites with Python and the Django framework
